DR NOOR HASRINA BAKAR

MENTAL HEALTH TRACKER

Group 2 - SDG 3 —————→

GROUP MEMBERS

- 1) ETHAN KANG KIAN MING 0382889
- 2) LEE PEI YII 0374699
- 3) DANIYAA RAMESH KUMAR 0382556
- 4) ISABA HAMZA CHOWDHURY 0391158
- 5) NAHIAN BARI CHOWDHURY 0391290

THE REAL WORLD PROBLEM

WHAT IS THE ISSUE?

MANY STUDENTS ARE UNAWARE OF THEIR OWN MENTAL HEALTH, WHICH OFTEN GOES UNCHECKED AND CAN LEAD TO PROBLEMS SUCH AS DEPRESSION.

HOW DOES IT ALIGN WITH THE CHOSEN SDG?

- SDG 3 – GOOD HEALTH AND WELL-BEING: THIS PROJECT PROMOTES BETTER MENTAL HEALTH AND PSYCHOLOGICAL WELL-BEING.
- THE SYSTEM SUPPORTS STUDENTS WHO MAY BE EXPERIENCING MENTAL HEALTH CHALLENGES.
- IT PROVIDES ACCESSIBLE RESOURCES TO ENCOURAGE HEALTHIER LIFESTYLES AND EMOTIONAL WELL-BEING AMONG STUDENTS.

WHO ARE AFFECTED BY THIS ISSUE?

ALL STUDENTS.

- COLLEGE
- HIGH SCHOOL

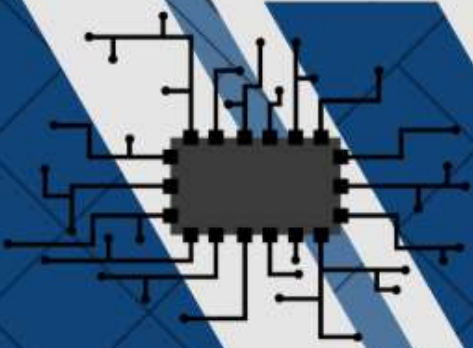

3 GOOD HEALTH AND WELL-BEING

THE SOLUTION

THE SOFTWARE
"MENTAL
HEALTH
TRACKER"

THE TARGET USERS
STUDENTS FACING
MENTAL HEALTH
ISSUES

FEATURES

- MOOD TRACKER
- SUBMIT MOOD REPORT
- EMERGENCY REPORT
- RESOURCE DIRECTORY

PRODUCT VISION

VISION STATEMENT OF THE SYSTEM

- ALLOW STUDENTS TO PROCATIVELY MANAGE THEIR MENTAL HEALTH

HOW IT ALIGNS WITH SDG 3?

- EARLY PREVENTION
- DIGITALIZING THE LINK BETWEEN STUDENTS AND CLINICS

BENEFITS

- INCREASE AWARENESS OF UNCHECKED MENTAL HEALTH IN STUDENTS

AGILE AND SCRUM

Sprint 1 - Planning and Analysis (To Do)

...

Sprint 2 - Design and Prototype (To Do)

...

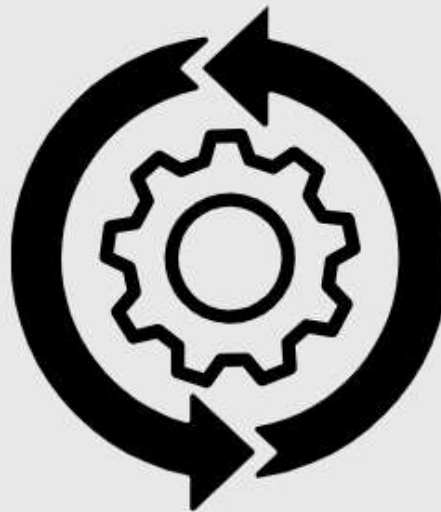

Sprint 3 - Testing and Finalization (To Do)

- THE SPRINT WAS SPREAD OUT INTO 3 WEEKS

1. PLANNING AND ANALYSIS
2. PROTOTYPING AND DESIGNING
3. TESTING AND FINALIZATION

AGILE METHODOLOGY

- A FLEXIBLE METHOD USED FOR THE SDLC PROCESS OF THIS PROJECT

Sprint Planning

Sprints 1 - Sprint 1 needs to happen before other sprints as the framework for everyone on the team.

Role: Business Analyst and Scrum Master

Business Analyst will plan with the team and write the following...

Week 1: Define Requirements, product vision, Class and Use case diagrams, user stories.

Planning: SDG 3 - Mental Health.

Sprint 2 - Sprint 2 needs to follow use cases and user stories. Make the prototype/wireframe and making it slightly interactive to allow for a first experience with the prototype.

Website: Figma

Role: UI Designer and Scrum Master

Week 2: Create Wireframe, all basic functional requirements

Sprint 3 - A phase dedicated to testing phase after prototype has been completed.

Role: Testing Lead

FULL TRELLO BOARD 22/02/26

Product Backlog

- Prepare Final Report (0/6)
- Prepare Presentation Slides (0/7)
- + Add a card

Sprint 1 - Planning and Analysis

- Define Requirements (0/4)
- Write User Stories (0/4)
- Create Use Case Diagram (0/5)
- Create Class Diagram (0/5)
- + Add a card

Sprint 2 - Design and Prototype

- Cancel Appointment (0/4)
- Student Registration (0/5)
- Student Login (0/4)
- Design Wireframes
- + Add a card

Sprint 3 - Testing and Finalization

- Create Test Plan (0/5)
- Conduct Usability Testing (0/5)
- + Add a card

In progress

- Create Trello Board (3/5)
- + Add a card

Testing

- + Add a card

Done

- + Add a card

GROUP MEMBER ASSIGNMENTS

24/02/26

Product Backlog

- Prepare Final Report (0/6)
- Prepare Presentation Slides (0/7)
- + Add a card

Sprint 1 - Planning and Analysis

- Create Use Case Diagram (Feb 25, 0/5)
- Create Class Diagram (Feb 26, 0/5)
- Setup GitHub Repository (Feb 26, 0/4)
- Write README (0/4)
- + Add a card

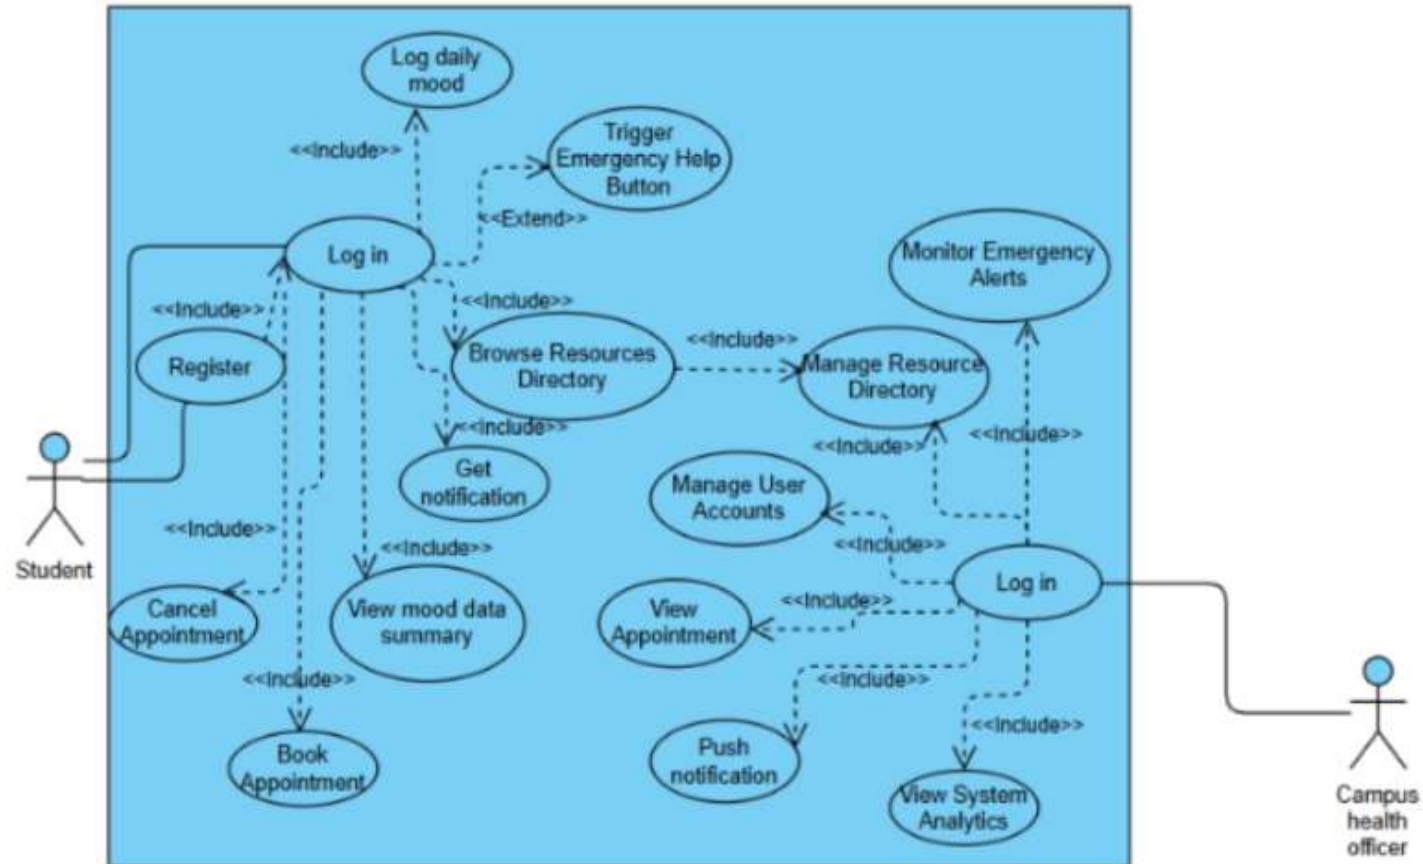

Sprint 2 - Design and Prototype

- Cancel Appointment (0/4)
- Student Registration (0/5)
- Student Login (0/4)
- Design Wireframes (0/5)
- + Add a card

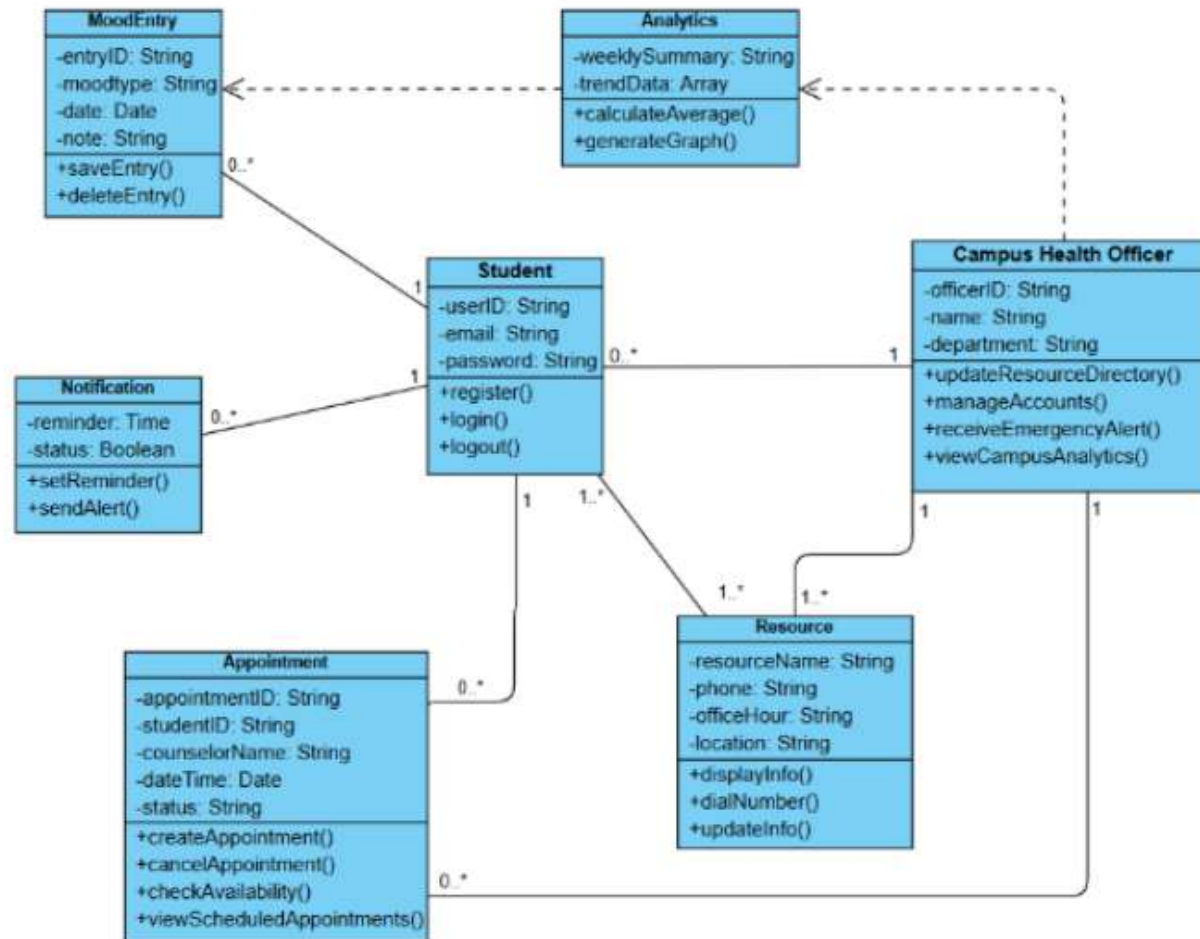

Sprint 3 - Testing and Finalization

- Create Test Plan (0/5)
- Conduct Usability Testing (0/5)
- + Add a card

TESTING

SOME TEST CASES TO TEST OUT CORE FUNCTIONS

Test Id	Test Case	Test Description	Action	Expected Result	Actual Result	Status	Test Date
TC-01	Login Function	To verify that the user can log into the system using the login button.	Enter email and password, then click Login.	The system should navigate to the Mood Tracking or Dashboard page.	The system navigated to the next page successfully.	Pass	6/3/26
TC-02	Sign Up Function	To verify that the user can access the registration page using the sign up button.	Click the Sign Up button on the login page.	The system should navigate to the registration page.	The system navigated to the registration page successfully.	Pass	6/3/26
TC-03	Mood Tracking Slider	To verify that the user can select their mood level using the slider.	Move the mood slider left or right.	The slider should move and allow the user to select a mood level.	The slider moved correctly.	Pass	7/3/26

TC-23	Manage Clinic Locations	To verify that clinic location management page works	Click "Manage Clinic Locations"	The system should display clinic locations and allow editing or deleting	Clinic locations are displayed and editable	Pass	8/3/26
TC-24	Student Account Management	To verify that staff can view and manage student accounts	Click "Manage Student Accounts"	The system should display student list with account status	Student accounts are displayed correctly	Pass	8/3/26
TC-25	Unlock Student Account	To verify that staff can unlock a student account	Click "Unlock Account" button	The system should unlock the selected student account	The system should unlock the selected student account	Pass	8/3/26

Feedback

- Was the interface easy to understand? and
- What improvements would you suggest?

User 1:

They found the Interface was simple to understand, but they think the visual UI could have more color.

User 2:

They found the Interface is slightly confusing, but simple enough. They also think that the Visuals could stand out more by adding more pictures.

User 3:

They found that the UI was a little confusing as there were no drop down options.

User 4:

They found the UI simple with easy enough navigation, but they think it is better to add more resources for the directory for the target users.

User 5:

They found the Navigation simple and booking is simple, but they wish we could add a dropdown option to cycle through all the pages.

Overall: Make the Ui linking easier and add visuals to improve the App.

Commit on Apr 26, 2019		
New folder structure created	1904c16	yesterday
Folder structure created	1904c16	yesterday
Updated readme file	1904c16	yesterday
This is my first commit and I have updated the readme file.	1904c16	yesterday
initial commit	1904c16	yesterday

SUMMARY

SUMMARY OF PROCESS

- USED TRELLO AND PLANNING
- FOLLOWED THE SDLC PROCESS
- USED AGILE METHODOLOGY
- SPLIT INTO SPRINTS
- DEFINED REQUIREMENTS
- MADE USE CASE AND CLASS DIAGRAMS
- LOW FIDELITY AND HIGH FIDELITY PROTOTYPES
- TEST AND FEEDBACK
- GITHUB REPOSITORY
